

Rental Services

Developing Long-Term Relationships With Unsurpassed Solutions

Making the most of your rental project takes meticulous planning and flawless execution. With a proven record of achievement spanning decades, RUSH Computer Rentals will deliver the right rental equipment to support your products and services. Put our experience, technical competence and technology know-how to work for your business.

Custom Software Loading

We will pre-load your rental software products, providing standard and custom configurations to meet your specific business needs. RUSH has the ability to load your custom software.

Delivery & Set-up / Technical Labor

RUSH has certified technicians on hand to deliver and set-up product, as well as to help resolve technical issues. Technical support is available to our customers 24 hours a day, 7 days a week.

Asset Management

RUSH has an integrated asset management system to manage and track your equipment rentals and leases. Our real-time up-to-date system provides easy, on-line access that puts you in touch with immediate reports. This system will enable you to know exactly what equipment you're renting or leasing, the length of the contract and the exact costs for each piece of equipment.

Business Technology When & Where You Need It

Our proven reliability, world-wide reach and exceptional service throughout the rental experience make the difference. RUSH will be your single point of contact to oversee your unique technology requirements.
