

Why Rent?

The Right Technology for Your Specialized Needs

RUSH Computer Rentals provides reliable technology and equipment when you need it the most. We will be there for you at just the right time to meet your critical technology needs and time constraints. Rely on the finest equipment and unsurpassed technical support when it really matters.

Employee Training

Renting is an ideal solution for employee and customer training. Whether your need is at your facility or an off-site venue our rental professionals work with you to develop a professional learning environment for your students.

Tax Advantages

Renting equipment from RUSH may allow you to expense the rental payment. Consult your tax advisor to learn more about the tax benefits of renting computer equipment.

Contract Employees

Consider RUSH to provide technology equipment for your temporary personnel. By renting you only pay for the time the equipment is required.

Product Evaluation

Make sure that your next equipment purchase decision is a good one. Renting can save thousands of dollars by allowing you to test your products prior to making large capital investments in technology.

Trade Shows and Events

When you rent from RUSH, you get the peace of mind of knowing that you will receive show-quality equipment delivered and set-up on time. Our event team makes sure that your event is a total success!

Short-Term Projects

Rentals provide a great solution for short-term projects. Avoid costly investments in new equipment when your need is temporary. Renting is a great way to complete your project on time and under budget.

Power Users

With technology constantly evolving, businesses face rapid obsolescence of their equipment. Renting allows you to periodically update your equipment while keeping costs down.

Budget Constraints

Renting extends your budget when your work needs to be completed and the capital for equipment purchase is not available. Choose RUSH to stretch your budget!

Immediate Delivery

If you have new equipment on back order, or are faced with an unexpected delay, renting can fill the gap by delivering reliable technology today.

Traveling Employees

Renting is the ideal solution for traveling employees who need equipment at their remote location. 1-800 toll free technical support is available 24 x 7.

Business Technology When & Where You Need It

Whatever your need, whether it's 1,000 computers for a short-term need or if you're renting computers for an ongoing multi-month project — RUSH will deliver.
