## RUSH Computer Rentals for Computer Equipment That Fits Your Budget

- Over \$33 million inventory
- Flexible, cost-effective programs
- Knowledgeable sales and support staff

### Programs

RUSH offers a variety of rental, operating lease, finance lease, and purchase options for your short and long-term needs. We will work with you to design solutions that meet your budget.

#### Rent Without Commitment

Best when timeframe is uncertain or project conditions where ownership is a risk.

- Rent as long as you like
- Return the equipment any time without penalties
- Immediate exchange for any required maintenance (repair)

#### Finance Lease

Use if your need is immediate but cash is not available. Cost can be spread over multiple budget cycles. At lease end, you own the equipment.

- Terms from 12 to 36 months
- New or used equipment can be financed
- "Soft costs" such as maintenance, training and software can also be included

#### Operating Lease

Use for projects or contracts which have a defined period. At the end of lease, you have the option to continue month-to-month, buy at a favorable price or return without further obligation.

- Terms from 12 to 36 months
- New or used equipment can be financed
- "Soft costs" such as maintenance, training and software can also be included

#### Value Added Services

- Single source supplier / Single point of contact
- Hardware acquisition
- Hardware configuration and testing
- Optional software loading
- Shipment/Deployment logistics
- Technical Support
- Advanced Exchange Maintenance within the U.S.
- Management Reports
